Use Computers to:

- Download content of extreme/radical nature with violent themes

What Should I Do?

Be part of the solution.

- ✓ Gather information about individuals without drawing attention to yourself
- ✓ Identify license plates, vehicle description, names used, languages spoken, ethnicity, etc.
- ✓ Do not collect metadata, content, or search electronic communications of individuals
- ✓ Do not do additional logging of on-line activity or monitor communications
- ✓ **If something seems wrong, notify law enforcement authorities.**

Do not jeopardize your safety or the safety of others.

Preventing terrorism is a community effort. By learning what to look for, **you** can make a positive contribution in the fight against terrorism. The **partnership between the community and law enforcement** is essential to the success of anti-terrorism efforts.

Some of the activities, taken individually, could be innocent and must be examined by law enforcement professionals in a larger context to determine whether there is a basis to investigate. The activities outlined on this handout are by no means all-inclusive but have been compiled from a review of terrorist events over several years.
